  4. Contractor cell phone # \_\_\_\_\_ Contractor business phone # \_\_\_\_\_
  5. Installation method \_\_\_\_\_ 7. Additional Requirements \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

Installation will comply with the National Safety Code. The right-of-way will be properly restored and the public will be protected from hazards during construction. A marker sign will be installed where appropriate.

If the line being permitted with this document is within the township right of way and has to be removed for maintenance or construction of roads, drainage or fencing, it will be the responsibility of the contractor or applicant to do so at no cost to the township.

Special Note: The contractor hereby acknowledges and understands that this approval is conditioned upon the utilities being installed in the right of way which is as farthest back from the roadway and never in the in-slope or ditch bottom.

The method of installations **under** the township road shall be by pushing and/or boring only. If impossible to install in this manner, written permission must be granted by the township in order to proceed. The applicant will be responsible for any maintenance costs due to settling for a period of 2 years.
